

If you REALLY want to WIN the Hatteras Grand Slam Tournament, then read below...

9 January 2015: Weather Routing Inc. (WRI) is proud to be the Official Weather Provider for the Hatteras Grand Slam Tournament! WRI will also be providing forecasts daily from 08 July through the 11th of July 2015. These forecasts will be available by visiting the link on the event's webpage, or by visiting [this link](#). Weather maps and products specifically created for this event are also available at that link.

We at WRI are proud to announce our new **Fishing Planner**, which is now "live" and available on SeaWeather by visiting [this link](#). This is an interactive tool that captains can now use that can be accessed by clicking on the link.

Fishing Planner tab at the top of your account homepage and also through our new interactive **Voyage Planner** tab. Once there you will be able to view our high resolution fishing and weather charts, along with "Hot Spot" overlays, or **Prime Fishing Locations**.

Prime Fishing Locations highlight and predict preferred areas that various species of fish will be present while feeding. Our **FishCast** will be a consensus of all these **Hot Spots**, to then provide a separate chart highlighting the ultimate destination to go to, known as "preferred and ideal prime fishing locations". **Prime Fishing Location** hotspots take into consideration the various parameters that fish prefer ... extensive research and programming have joined forces to create a product that we are confident will be useful to subscribers.

If you have not tried or viewed our Fishing Planner before, we encourage you to do so. We have just added links to two tutorial videos with step by step instructions on how Fishing Planner works. These can be found near the bottom right hand corner of the Fishing Planner Page, with links labeled "Tutorial #1" and "Tutorial #2"
