Blue Marlin weighed in are worth 1 point per pound provided they meet the tournament minimum of 110 inches lower jaw fork length or 400 pounds in weight. If a Blue Marlin brought to the scales is less than 110 inches lower jaw fork length or 400 pounds in weight, the boat will be penalized 400 points. All billfish released species must be verified by digital photo or video. Federal law requires that all released billfish be left in the water. In the event of a tie in levels I and II, the winner will be determined by the boat who achieves the point total with Blue Marlin accounting for more of the points.

In the event there is still a tie, the boat achieving the points first wins (on time).
